SIGNRACER MOBILE SIGNMAKING WORKSTATION

SIGNRACER

MOBILE SIGNMAKING WORKSTATION

The Secabo SignRacer allows you to comfortably travel with your entire signmaking studio at hand. It was specially designed for on-the-go use in the area of extensive signmaking projects, merchandizing, mobile sales booths for textiles and trade fair construction. SignRacer's special flight case consists of high-quality 9mm plywood, as well as professional fittings. Despite its minimal weight, it is entirely capable of handling the requirements of mobile deployment. The SignRacer can house a 60cm vinyl cutter - for example the Secabo S60 - and offers plenty of storage space behind a door, as well as two full extensions for other devices, such as a heat press, materials, tools and a laptop.

In the blink of an eye, SignRacer's large front lid can be transformed to a sturdy work table with adjustable feet on the case. A rear door allows for comfortable feeding of film rolls to the vinyl cutter. Appropriate feedthroughs and clamps allow for laying and bundling cable inside of the SignRacer. The Secabo SignRacer stands on sturdy castors, 2 of which are equipped with brakes. The Secabo SignRacer is the ideal mobile workstation for mobile use in the signmaking and garment decoration.

Compact dimensions

The SignRacer fits inside a VW bus or Sprinter, thus making it an ideal companion for projects outside your workshop.

Heavy Duty Design

The SignRacer's robust design ensures safe transporting of your hardware and material.

Lots of storage space

The SignRacer's large storage space allows for transporting materials, tools, machines, and much more.

MATCHING VINYL CUTTERS

Matching Vinyl Cutters:

- Secabo C60IV, C60 V, S60, S60 II, T60 II
- Summa D60
- Graphtec CE6000-60
